1. The airfield is about three km southwest of Tapolca, south of the road to Kasztaly. On the east, south and west it is bordered by rolling meadowland.
  2. The north-south dimension is 2,500 m, the width 800 m.
  3. There is one large hangar 100 m x 40 m, with a height of 25 m, built of yellow tile painted brown. Its capacity is 30 Stormoviks. A second similar hangar is east of this, much damaged and not yet reconstructed.
  4. The ground is a hard loam with grass, and the field can be used in all weathers. It is only partly drained. There is no concrete runway, but there is a 30 m. tarmac in front of the hangar.
  5. Minor repairs can be made in the northeast corner of the hangar.
  6. The barracks is surrounded by barbed wire. The headquarters building is surmounted by a watchtower, 15 m. high, constantly occupied by a guard.
